// education

B.Sc. in Software Engineering
Shariaty Technical & Vocational University
2018 → 2023

// achievements.log

+ [2019] **Winner** — Algorithm Contest at Quera.ir
+ [2017] **Winner** — Game Development Contest, built with C# Windows Forms

// 01 professional_summary

Frontend Developer and UI/UX Specialist with **5+** years of experience engineering scalable web applications and enterprise systems. Expert in **React.js**, **Next.js**, and **TypeScript**, with a strong focus on architecting custom UI component systems, data-driven dashboards, and integrating enterprise AI capabilities. Proven track record leading projects across the entire product lifecycle — from UX research and prototyping to frontend architecture, API integration, and production maintenance.

// 02 technical_skills

core_frameworks:	TypeScript · JavaScript (ES6+) · React.js · Next.js · Vue.js · AngularJS · React Native
state_and_data:	React Query (TanStack Query) · Redux Toolkit · Context API · REST APIs · WebSockets
ui_ux_styling:	UI/UX Design · Custom Design Systems · HTML5 · CSS3 · SASS/SCSS · LESS · Responsive Design
architecture:	Frontend Architecture · Component-Driven Dev · Performance Tuning · Cross-Browser Compatibility

// 03 work_experience

Frontend Developer & UI/UX Specialist
Nov 2024 → Present
@Fekoor Sanat Tehran
HEAD → main a91fe24

- **Enterprise Dashboard & IT Platform ("Sheng"):** Architected and developed an enterprise-wide platform from scratch using Next.js (App Router), React.js, and TypeScript, consolidating business workflows and organizational automation.
- **Enterprise AI Integration:** Integrated enterprise-grade AI models and intelligent chatbot workflows (such as Parsa) directly into dashboard subsystems for automated business operations.
- **Custom Component Infrastructure:** Engineered a scalable, zero-dependency custom UI design system and reusable component library from the ground up, significantly reducing boilerplate and boosting UI consistency.
- **End-to-End UI/UX:** Led design and user testing for Fekoor Sanat's core web interfaces, maintaining continuous collaboration with backend/DevOps for testing, staging, and production rollouts.

Frontend Developer
Jul 2021 → Oct 2024
@Fanap Infrastructure 7c3d9b1

- Collaborated within a cross-functional team of **7** to engineer large-scale enterprise web applications using React.js, Next.js, and Vue.js.
- Implemented over **70%** of core frontend functionality; restructured Next.js APIs to eliminate redundant middleware layers, reducing build bundle size by **30%**.
- Developed high-performance recursive rendering components capable of efficiently displaying over **50,000** hierarchical tree items.
- Optimized data fetching with React Query and Redux, achieving an estimated **40%** performance gain across data-intensive views.
- Built and delivered performant cross-platform mobile applications using React Native for iOS and Android.

Frontend Developer
Jan 2021 → Nov 2021
@Fanap Soft e58a102

- Collaborated with an Agile team of **15+** engineers developing an ERP mobile solution utilizing AngularJS and OnsenUI.
- Developed complex components from scratch, including custom Persian/Gregorian calendars, barcode scanners, and search modules.
- Refactored **40+** legacy components, reducing script complexity by **30%** and doubling rendering efficiency.

Frontend Developer
Jul 2019 → Jul 2021
@Lisiantos 2b4c8f7

- Designed and developed over **200** responsive HTML5/CSS3/JavaScript website templates optimized for all modern viewports.
- Created intuitive UI/UX design patterns, leading to a **40%** increase in customer satisfaction.
